

Network

FAQ · APR 2026
FOR REVIEW

Questions, *answered.*

A draft of the FAQ content for the Network site — prepared for review and approval.

Purpose: This is the proposed FAQ content for the Network website. Once approved, it will be added to the site with structured data so that Google can show these as expandable dropdowns directly in search results. AI assistants (ChatGPT, Claude, Perplexity, Gemini) will also pull answers from this content when users ask about Network or interior design in Singapore.

Action needed: Please review the wording. Edit anything that's inaccurate, off-brand, or that you want phrased differently. Once approved, we'll publish.

Note on numbers: Where specific figures are quoted (e.g., "2,700+ homeowners matched"), please confirm or adjust to current accurate figures before publishing.

S 01 · FAQ

The *questions*.

11 questions, drafted for review. Each will be published as visible content and embedded as FAQPage structured data.

QUESTION 01

What is Network?

Network is Singapore's interior design matching service. We hand-pick the best interior design firms for you based on your home, budget, and style, so you don't spend weeks comparing options on your own. Free to use, no obligation.

QUESTION 02

Is Network an interior design *firm*?

No, Network is not an interior design firm and we don't carry out renovations ourselves. We're a matching service that connects Singapore homeowners with vetted interior design firms in our network. Once you're matched, you work directly with the firms. Network is just the introduction.

QUESTION 03

How does Network *work*?

The process has three steps:

1. You answer a short questionnaire about your home, style, and budget.
2. Our team hand-picks 3 firms from our network of 120+ vetted designers that fit your specific needs.
3. You meet the firms, compare quotes, and choose your favourite.

It takes only a few minutes to start. Most homeowners are matched within one business day.

QUESTION 04

Is Network free for *homeowners*?

Yes, Network is completely free for homeowners. There is no charge to be matched, request quotes, or use any of our tools. We are paid by the interior design firm only when they win a project, never by the homeowner.

QUESTION 05

Can I trust the firms on *Network*?

Yes. Every firm in our network undergoes a vetting process before being listed. We verify ACRA business registration, check relevant industry licences and accreditations (HDB Registered Renovation Contractor, CaseTrust-RCMA, BCA, ISO, BizSafe where applicable), review portfolio and project history, and cross-check with industry sources.

We also monitor ongoing performance using verified reviews from homeowners who completed projects. Firms that fall below our quality standards are removed from the network.

QUESTION 06

How is Network different from other renovation platforms in *Singapore*?

Most renovation platforms are directories. They show you every firm and leave you to figure out which ones might be a good fit. Network is a concierge matching service. Our team studies your specific needs, then hand-picks 3 firms tailored to your home, budget, style, and timeline. You receive a curated shortlist instead of an overwhelming list.

QUESTION 07

What types of properties does Network *handle*?

We match for HDB flats, condominiums, and landed properties across Singapore. We handle projects ranging from minor refurbishments under \$30,000 to full renovations above \$150,000. Whether you are renovating a 3-room HDB BTO or a landed home, we have firms in our network that specialise in your project type.

QUESTION 08

How long does a typical Singapore renovation *take*?

Timelines vary by property type and scope, but as a general guide:

- **HDB flats:** 8 to 12 weeks for renovation work, plus 4 to 6 weeks for design and planning beforehand.
- **Condominiums:** Similar to HDB, sometimes longer due to MCST rules.
- **Landed properties:** 4 to 6 months or more, depending on the scope of work.

The firms you are matched with will provide specific timelines for your project.

QUESTION 09

What if I'm not happy with the firms I'm matched *with*?

Let us know and we will re-match you with different firms from our network, or refine the shortlist based on your feedback. There is no obligation to engage any of the firms we suggest. Our goal is to help you find the right partner, not simply any partner.

QUESTION 10

How much does HDB or condo renovation cost in *Singapore*?

Costs vary widely depending on property type, size, and scope. As a general guide:

- HDB BTO (light refresh): from \$30,000
- HDB resale (full renovation): \$50,000 to \$90,000
- Condominium (mid-tier renovation): \$60,000 to \$120,000
- Landed property (full renovation): from \$150,000

For a more accurate estimate based on your specific property and scope, please use our Cost Guide on the website.

QUESTION 11

How do you match us with *designers*?

Three things drive the match:

1. **Your brief** — property type (HDB, condo, landed), size, budget range, timeline, and the style you're drawn to.
2. **Firm fit** — we look at which firms in our network have done strong work on similar properties, in your budget band, and in the style direction you described.
3. **Current capacity** — we only match you with firms that can actually take on your project in your timeline, so you're not chasing a firm that's fully booked.

Our team does this manually, not with a generic algorithm. You get 3 firms shortlisted specifically for your project, usually within one business day.

APPENDIX · NEXT STEPS

What happens after approval

Once approved:

1. The FAQ section will be added as a visible section on the homepage (and possibly a dedicated /faq page).
2. The same content will be embedded as FAQPage structured data (JSON-LD), which is what Google reads to display the expandable dropdowns in search results.
3. AI assistants will start pulling these answers when users ask about Network.

Estimated time to implement after approval: about 30 minutes.

Please review the content above and let me know:

- Any wording changes
- Any answers that need different numbers or facts
- Any questions to remove, or new ones to add
